

Department of Botany Wins 1st Prize in Model Exhibition on National Science Day 2024

The Department of Botany proudly secured 1st Prize in the Model Exhibition organized on the occasion of National Science Day held on 28th February 2024. The department's innovative model on **Eco-bricks** showcased a sustainable approach to recycling plastic waste.

The students presented an impressive display featuring a **table and stools constructed entirely from Eco-bricks**, highlighting the potential of repurposed plastic in creating functional and durable furniture. Additionally, they crafted **key rings made from recycled plastic products**, demonstrating creative ways to repurpose plastic waste into everyday items.

The model and its exhibits were highly appreciated by the judges and visitors for their ingenuity, environmental significance, and emphasis on sustainable practices. This achievement reflects the department's commitment to promoting environmental awareness and inspiring others to adopt eco-friendly innovations.

The success of the Botany department at the event serves as a motivation for students to continue exploring creative solutions to address pressing environmental challenges.
