Artificial Intelligence
is a computer
program that can
create machines
that can learn, reason
and act like humans.

A large, blue, textured letter 'A' is centered on a black background. The letter has a grainy, fabric-like texture. To the left of the letter, there is a small red rectangular tag with some illegible text.

Abstract

"Political Intelligence: Shaping the Future"
The well known New Yorker explores the transatlantic power of Political Intelligence (PI), from intelligence to space exploration. PI is revolutionizing the world with innovations the smart scientists, self-driving cars, and medical diagnostics. As PI reshapes industries, ethical concerns about privacy and transparency must be addressed to ensure responsible development. This New Yorker is relevant to US impact and mission coming about the future.
