The Department of Geography, North Gauhati College in collaboration with Skyline Institute of Geoinformatics organized a seminar on Geospatial Technologies and its Applications on the 5th of November, 2024. Ms. Sneha Neog, the key-note speaker of the event, acquainted the students with the varied aspects of Geoinformatics and familiarized them with the different career building opportunities in Geoinformatics and Geography. Ms. Neog while introducing her institute, too spoke on the current scenario of Geoinformatics applications in the different governmental and non-governmental sectors at state and national level. A total of 60 participants including students and faculties attended the seminar.
